Figma Clone Assignment

Batch 18

🎯 Objective

Choose **ONE** of the given Figma designs and **clone it into a working website** using:

HTML + CSS + Bootstrap

The website **must be responsive** for desktop, laptop and mobile screens.

🧳 Tasks & Requirements

Task 1:

https://www.figma.com/design/Y3HXNlZmGAyEP1UGEeSpRY/Down-website?node-id=0-1&p=f&t=pexpBu9k2i8b2gE3-0

Students are required to clone at least 3 pages of three own choices.

Task 2:

https://www.figma.com/design/bXyu07JPleIBrYkLnDiMtL/Landing-Page-Design--Community-?node-id=0-1&p=f&t=COyOj8sBbDQOYSrL-0

Students are required to clone whole landing page.

✅ Instructions:

1. Open both Figma links and select **one design**.

2. Study the layout and sections:
   - Header / Navbar
   - Hero section
   - Content sections
   - Footer

3. Convert the design into code:
   - Match layout, colors, fonts, and spacing
   - Use **Bootstrap grid system** for responsiveness
   - Add mobile-friendly navbar
   - Buttons and cards should look similar to the design

🎁 Submission:

Submission Must Include

   - GitHub Repo Link
   - Live Website URL (Hosted Url)
